To Whom It May Concern,

Please accept this letter of recommendation on behalf of Nodi Khan. It was my pleasure to have had Nodi as a student in my Math class during the 2014-2015 school year at Public School 150 in Sunnyside, Queens.

As a mathematician, Nodi is incredibly thoughtful and persistent. She genuinely enjoys the challenge of problem solving and the reward of making connections and arriving at solutions. Nodi consistently applies prior knowledge and well-developed reasoning skills in order to understand and solve problems. Furthermore, she routinely utilizes multiple strategies as a means of checking the validity of her work. Nodi has a natural ability to work well with others. She is able to clearly explain and support her strategies and solutions while building on the ideas of others.

In addition to being a versatile mathematician, Nodi is also a gifted artist. Throughout the school year, Nodi combined her creativity with the key concepts that we were studying to design anchor charts for the classroom and study sheets for her peers. Through this process, Nodi was able to develop and demonstrate her own understanding while presenting information in a way that was organized, innovative, and a valuable resource for others in our classroom.

Nodi Khan is an incredibly dedicated student and well-rounded individual. She is extremely hard working and a model student both in and out of the classroom. I wholeheartedly believe that she would be a welcomed addition to any educational program.

Thank you for your consideration.

Sincerely,
